Master of Business Administration Concentrations

Accounting:

This concentration provides the skills and knowledge necessary for accounting positions in a variety of settings. The Accounting option includes courses that will prepare students for the Certified Public Accountant (CPA) or Certified Managerial Accountant (CMA) examinations and for a variety of positions in corporate accounting. Students who successfully complete certificates in Accounting will fulfill this concentration.

Financial Management:

This concentration provides the skills and knowledge necessary for financial management positions in a variety of settings. The Financial Management option focuses on financial analysis, financial Institutions, investments and corporate finance.

Health Administration:

The Health Administration concentration examines how financial, legal and marketing activities are transformed when applied in health care organizations. Integration of the systemic view of U.S. health care into the decision-making process prepares students to become mid-and senior-level health executives who are able to combine the analytic tools of business with an understanding and appreciation of the human side of health care.

International Business:

The globalization of business is ongoing and pervasive. International business courses emphasize understanding the cultures and institutions that shape trade and investment decisions. Students may elect to take the Special Topics course, which offers opportunities to visit countries abroad to learn directly about business practices and social customs.
